

## INNOVATE2030 SDG13

Hereby we certify that

**Natallia Foshier**

came **2<sup>nd</sup>** in the **Innovate2030 – SDG13 Program**.

The Innovate2030 Program, organized by ekipa is a global initiative that invited creative and visionary individuals to develop sustainable solutions. A total of **523 participants** from **57 countries** submitted **129 ideas** to address five real-world challenges posed by the industry leaders Haspa, Henkel, General Electric RheinEnergie and RWZ.

We are pleased to confirm that **Natallia Foshier** as part of the team **UE Future Fuelers** developed and submitted an innovative solution to the challenge "**Future of sustainable energy concepts**" provided by **RheinEnergie**. **Natallia Foshier** demonstrated exceptional leadership skills, taking ownership of the innovation project, and driving it to success. Regarding skill development, **Natallia Foshier** has demonstrated proficiency in problem-solving throughout the duration of this project by submitting a unique and sustainable concept aimed at addressing the issue of climate change.

After being selected out of all participants, **UE Future Fuelers** joined an exclusive coaching event to develop pitching skills and lay the foundation for a collaboration model with **RheinEnergie**. During an intensive collaboration phase, **UE Future Fuelers** further elaborated on its solution. The team pitched their final solution in front of company representatives and was voted **2<sup>nd</sup>** place in the overall competition.

We wish **UE Future Fuelers** all the best for the future and hope that they will continue to innovate and drive positive change in their respective field.
